

con|cepts

con|cepts

[kon-septs]
noun

- _the forming or devising of a plan or idea
- _an abstract idea; a concept
- _a plan or intention
- _a directly conceived or intuited object of thought

The **concept** behind the ideal work space would be to allow you to function with no distractions, as one. It would be to allow the elegant work environment to be adaptable and efficient. It would be to give your imagination more room to grow and inevitably, more ideas for your business to flourish. After all, the very foundations of your business are created here.

It is with this in mind that we design, build, and create your unique work environment. Our **concept** is to create versatile, innovative and comfortable spaces which are also visually stunning. From **concept** through to completion, the perfect balance of productivity and efficiency is adapted to suit your needs.

This is where **concepts** are given life, imagination meets clarity and intention becomes reality.

quality

Balmoral manufacture in Dunmurry, Belfast, the traditional home of the company since its inception in 1920. Combining over 20,000 square metres of production space with the latest technology in manufacturing, we design and create exceptional furniture solutions. Balmoral manufacture under the stringent ISO BS EN 9001:2008 Quality Assurance standard, enabling us to have confidence in every piece of furniture and seating we supply.

environment

We have an environmental policy which commits us to reducing waste and energy. We've worked to introduce improvements throughout our manufacturing process and wherever possible reduce the environmental impact of all our operations, enabling us to secure accreditation to the Environmental Management System BS EN ISO 14001:2004.

accreditations

All products are manufactured under the stringent BS EN ISO 9001:2008 quality assurance standard, the environmental management system BS EN ISO 14001:2004 and the health and safety management system OHSAS 18001:2007.

aston

Featuring a crisp mitred corner and stylish reverse chamfer, the Aston executive desk can be specified with a single wood veneer finish, either Oak or Natural Walnut and including a solid wood edge profile of the same finish, or in Ice White or Black, through-colour laminate with a solid wood edge profile. The drawer and door fronts may be specified separately in a choice of either Oak or Natural Walnut, Bright White or Black Laminated finish.

Chair model above: Vibe 10.

Chair model below: Flow 5WG.

intuition

Simplicity and functionality, with the elegant large sweeping work surfaces reflect the gracefulness of this distinctive range. Desk tops are 30mm thick with a reverse chamfer on all edges. A choice of three veneers: Cherry, Maple and Walnut, highlighted with silver fittings. Tables, pedestals, cupboards and bookcases which suite with the desking, are all available with the same silver finishes to highlight the beauty of the real wood veneers. Chair model: Vibe 6 DAA.

report

Report is a high-end stylish range of executive desking for prestigious office interiors. Offering wooden veneer finishes in Ebony and Walnut, and also available in Walnut melamine, Report provides an impressive aesthetic for the business environment. Report comes with the option of storage returns, cabinets, external shelving, modesty panels, integrated cable management and drawers for storage.

Chair model: Captain.

focus executive

Designed for the executive office, Focus Executive is manufactured from contemporary 38mm thick panels available in a wide range of MFC finishes. Custom made with cable cut outs and integral spacers to give a floating top design. Bespoke storage options that are exclusive to this range can incorporate premium features such as soft close hinges and contemporary handles.

Front Chair model: Zest.

Behind Chair model: Headlines.

funny directional

The executive area has its own meaning: to express prestige and solve real business needs. Funny satisfies these requests with the different proposals of furnishing systems and solutions, each with its own personality and compositional versatility. These desks are designed with 4 wooden irregular pentagonal legs. A single desk, for those who love the solidity of wood without sacrificing design.

dna

DNA features an elegant cast aluminium leg frame which supports a combination of worktop shapes and personal storage elements, affording a clarity of thought and design in an otherwise complex environment. Work surfaces are available in real wood veneer, laminate and MFC with a reverse polished chamfered edge detail. DNA is a visually exciting furniture concept combining simple clean and elegant design with the energy and flair required in modern workspaces. Chair model: Vibe 5.

martin

Martin rectangular desks provide a less formal and more friendly style of furniture for the modern office or executive space. Frames are available in solid Oak or Walnut with tops available in real wood veneer to match, or in a combination of laminate with solid wood edge profiles. This feature is also taken through to the modesty panel which also shows the same attention to detail and the solid wood edge profile. Chair model: Flow 3G.

tb timber

Introducing an elegant, sophisticated look into any office environment. Using beautifully detailed solid timber uprights on the leg frames, this has been developed to provide a viable alternative to 'all steel' desk and bench solutions offering extensive cable management. Work surfaces available in: Laminate and MFC with PVC edge detail. Screen model: Cosy.

focus 250

Designed to optimise space with the possibility to extend in a growing office. Can be used as a single desk or in back to back runs, enhancing the use of space resulting in a dynamic, open plan office. Minimalistic design with the advantage of smart cable management, make the Focus 250 a tailored solution to any office environment. Accessorised with toolbar privacy screens allowing you to customise individual work space to create a dynamic area. It is available with a range of leg options whilst the tops are available in a choice of six MFC finishes: Oak, Beech, Maple, Verona Cherry, Walnut, Grey and White. **Bench model:** B8 Goalpost frame.

Bench model upper:
TB_B8 Inca A frame.

Bench model middle:
B8 Hoop frame.

Bench model lower:
B8 Height Settable Goalpost frame.

focus 200

Offering integrated cable management leg i-frame, this flexible office bench system can be adapted to any office environment.

Frames are available in matt silver with optional white finish, whilst the tops are available in a choice of six MFC finishes: Oak, Beech, Maple, Verona Cherry, Walnut, Grey and White.

Screen model: Focus Screen.

focus 150

With a 25mm top available in a choice of six MFC finishes: Oak, Beech, Maple, Verona Cherry, Walnut, Grey and White, this office desk offers a functional workspace. Its two cable managed legs allow you store computer and other office electrical cables neatly out of the way. Optional chrome cable ports add a premium feel.

Chair model: Sofi 7200.

focus 100 cantilever

For a more open office layout the Focus 100 Cantilever desk is an ideal desking solution. Offering multi-purpose use as a stand alone workstation or configured into groups for a bespoke office layout. The choice of six MFC finishes: Oak, Beech, Maple, Verona Cherry, Walnut, Grey and White offers further customisation in your workspace. **Chair model:** Bal 502AA Mesh.

focus 100 panel

The Focus 100 Panel desk is a flexible desking solution which can be used as a stand alone workstation or configured into groups for a bespoke office layout. The choice of six MFC finishes: Oak, Beech, Maple, Verona Cherry, Walnut, Grey and White offers further customisation in your workspace. **Chair model:** Bal 502AA Mesh.

focus storage

The focus storage range complements the focus desking range. A choice of six MFC finishes: Oak, Beech, Maple, Verona Cherry, Walnut, Grey and White highlighted with solid 18mm MFC back panels and quality internal fittings. Tops are 25mm thick with a square edge profile, all units are lockable. Offering optional shutter door colours and each unit can also be configured internally to meet the demands of the modern workplace.
Chair model: Bal 602 Square Back.

be by bisley

Dynamic organisations need to respond swiftly to changing work landscapes with minimum disruption and Be by Bisley is the ultimate solution. It can be rearranged and reconfigured whilst supporting an organisation's ever-changing and evolving needs. It is not one solution but a plethora of possibilities to suit the different needs of individuals and businesses now, as well as in the future.

bisley essentials

A group of core products that no office can function without: cupboards, tambours, lodges, drawers, desk high storage and combination units. This select portfolio has allowed us to take the complexity out of specifying your perfect work space. A much simpler range not only means a tighter product range but also specific finishes and sizes. Essentials range is an affordable, high quality storage solution to suit your needs.

martin credenza

Martin storage, complimenting the Martin bench desking, is available with Oak or Natural Walnut veneer carcass and tops, with a choice of Gloss White, Gloss Black or chrome handles. The credenza is available with Oak or Natural Walnut veneer carcass, with either a veneered top surface or laminate top surface, with a single adjustable shelf. Each unit is supplied with recessed finger-pull detail, height levelling feet on solid timber legs.

Crank handle adjustment

Electrical adjustment

Retractable electrical height display unit
with 4 position memory function

oblique adapt

Oblique Adapt desking provides a stylish, robust and reliable height adjustable frame within the popular Oblique furniture collection. Frames may be easily adjusted from a height of 680-880mm but the addition of a sophisticated, smooth operating electrical mechanism provides the ultimate workstation height adjustment from 650-1300mm.

Chair model: HAG Capisco.

dna

DNA desking is a visually exciting furniture concept, providing a simple elegance that belies the exceptional sophistication of its design and engineering. An elegant cast aluminium leg frame supports a combination of work surfaces that feature radius corners to soften the office environment, affording clarity of thought in an otherwise complex environment. Chair model: Mix 3.

hi-line 30

The Hi-Line 30 table range represents a continuing commitment to providing a range of executive furniture with the highest achievable standards of elegance and quality. The beauty of real wood is enhanced by simple, sharp, clean lines and features a square edge profile. Silver fittings highlight the traditional beauty of the Oak, Maple, Cherry or Natural Walnut real wood veneers. Chair model: Mix 3.

intuition

The beauty of real wood is enhanced by the simple, clean and organic shapes of the Intuition table collection. Simplicity and functionality, with the elegant large sweeping surfaces reflect the gracefulness of this distinctive range, with slim edge profiles and silver fittings. Intuition reflects the designer's attention to quality and detail, bringing a refreshing flavour to the conference room. Chair model: Danny 1.

babila

Babila table reveals the rigorous lines and the natural warmth of the solid ash wood legs matched with an ultra-thin solid laminate top, supported by an extruded aluminium frame.
Chair model: Babila Wood Armchair.

ct_620

This striking chrome framed executive meeting table, with its clean, crisp lines, will add an air of sophistication to your office space. With a wide selection of MFC tops to suit the office environment, this will help to complete your executive area. Chair model: Zeus.

frame+

Minimalistic Frame+, a table system in which the simple, bare metal perimeter structure surrounds and supports the slim line top. A table with no aesthetic compromises, complimented with a full range of accessories and furnishings.
Chair model: Captain Design.

arki arkwood

Clean and rigorous in design, but versatile in its different applications. Arki-Table has a 6mm solid laminate top, with legs in solid Oak and an extruded aluminium frame. Available in white or black full colour versions with optional cable management. Chair model: Tweet 890 & 895.

kite

The unique Kite Tables range ensures personal space, clear lines of sight and the flexibility to quickly change the layout to suit your needs. Based around the unique Kite shape, awkward corner positions are eliminated ensuring all delegates have a good line of sight and are fully engaged. Kite Tables are easily folded away for storage and have a 25mm thick table top. Chair model: Alina ALM/CAST.

fso

Furnish your office space and training rooms with our folding meeting tables, where space is a premium, simply fold away after use. Choose from a variety of styles and the ability to accommodate an extensive range of top shapes and sizes. Table tops are perfectly balanced to minimise premature opening & closing, and the flipping action is controlled & easy to operate. No heavy lifting; just tilt and move.

board

The Board table system combines all the prestige of a high-end boardroom table with the flexibility of a modular design, in harmony with any environment and any requirement. Available in a wide selection of colours and textures, ranging between lacquered surfaces, wood and leather, to make each table unique. These large tables have central top access and optional cable base closing for wiring. **Chair model:** Captain Design.

select 24

Select provides an ergonomically advanced, pleasingly refined seating choice. Offering the discerning client the specification, flexibility and comfort they deserve. With a choice of two back heights and a generously proportioned seat and carefully tailored upholstery, Select provides an elegant seating solution for the modern office.

generation

With black leather padded seat and comfortable armrests, the Generation range is a smart addition to any office. The swivel has a simple gas lift mechanism allowing you to adjust the height of the chair. Available in a medium and high back rest complimented by a visitors chair.

mesh

This stylish range would make a practical addition to any office. It features a specifically designed mesh back to achieve optimum comfort with additional lumbar support. The swivel mechanism and adjustable seat in black fabric, allows you to get comfortable and find your perfect position for work.

vibe

Vibe provides an ergonomically advanced, pleasingly refined seating collection. Offering the specification, flexibility and comfort you deserve, but with an elegant style. Available with a full plastic back shell, fully upholstered or with a show wood outer back, Vibe can be tailored to suit most environments. Vibe is simple in form and light in design providing an elegant seating solution for the modern office.

icon

The Icon range has a ribbed leather finish for a stunning, sleek design with supreme functionality. Designed to adapt to fit the body and deliver seating comfort. Available also in a medium back, this high back chair offers further lumbar and neck support. Featuring an aluminium and chrome frame with gas swivel and height adjustment.

du_39 series

This office chair range offers fantastic style and practicality. With black leather covered seat and back, wide span angled chrome support legs and castors with tilt locking system and swivel mechanism. Complimented by a cantilever option.

aria

The Aria range is an ideal solution for managerial, executive and boardroom areas in contemporary white or black leather effect. The simplicity of design and firm support is what sets this range apart from traditional office seating. The range is now available with a memory swivel return that enables the chair to return to the original position when not in use.

headlines

Headlines is designed with a perforated backrest for maximum body heat ventilation or with a fully upholstered backrest. It is also shaped to provide dynamic support for your back. All Headlines chairs come with lockable tilt positions, depth-adjustable and pneumatic height adjustable seat.

shiny

With geometric forms that break from traditional ideas, Shiny livens up the office environment. Following the criteria of ergonomics, Shiny is an example of how to blend mechanisms and technology in a designer object.

integra

The Integra chair with lumbar support represents an optimal solution for the modern office environment in which design, comfort and technology blend naturally and effectively. An extensive choice of variations are available with differing styles of backrest and seat options to offer a customised and complete seating solution.

theory

A contemporary mesh back, black leather executive range with quality soft feel perforated back rest. Swivel chairs feature a gas seat height adjustment and reclining function, along with knee tilt and adjustable tension control. The complimentary visitor chair has a sleek chrome cantilever frame.

reaction

Reaction combines the virtues of an ergonomic operator's chair with a particularly elegant look. The backrest structure consists of a special polished aluminium casting and comes with or without armrests. Ideal for anyone who has to sit for long periods and is available in soft leather or fabrics.

kab controller

A 24 hour, ergonomic chair which is a popular choice in surveillance and control centres or in a deluxe office environment. Featuring a pump up lumbar support and recline mechanism that enables the user to set the chair as comfortable as possible for long 24/7 situations.

stella

This 24/7 posture chair has a large memory foam seat. Additional inflatable lumbar support within the anatomically contoured back provides extra support and the multi-function mechanism ensures each user has the ability to optimise their seating position individually.

zircon

To encourage a healthy posture, the Zircon has an anatomically contoured backrest with kidney supports to fit the user's body. The seat cushions are designed to help keep the pelvis straight, thus encouraging the spine to assume its natural S shape for comfortable sitting throughout 24/7 situations.

mercury

This 24-hour chair is designed with multiple users in mind. The features allow each user to adjust the chair to achieve the most comfortable posture position. Designed with a forward seat tilt lever to help keep the pelvis straight and encourage the spine to assume its natural S shape.

profile 24

The ergonomically designed back of the Profile task chair fits naturally into the curve of your spine, a requirement for the seating demands from call centres to executive offices. The elegant back has been combined with a contoured posture seat cushion to provide a strong aesthetic and this is then fused with a robust synchronised seat and back mechanism.

v smart

The patented smart mechanism inspires movement while at the same time providing active support, variety and comfort in every seated position. It automatically senses the weight of each user as they sit on the chair and instinctively provides the correct tension to work in harmony with each individual. It establishes the height and depth of lumbar support required and ensures the flexible back fits naturally into the curve of the spine. **Desk model:** DNA.

skill

With a synchronised mechanism, seat with integrated slide and height-adjustable arms all combine to offer outstanding comfort in this chair. This is complimented by a simple padded plastic backrest provided with an integrated lumbar support system.

flow

Clean lines and simple aesthetics mean that the chair fits comfortably in most environments. With a synchronised tilt mechanism, combining the back, armrest and seat in one continuous sweeping entity. A breathable and elastic mesh wraps the user comfortably and provides superb support over a large contact area for long term user comfort.

rbm 700

A work chair that combines a modern, distinct, ergonomic design with ease of use. The chair is easy to adapt and adjust according to individual requirements. Regardless of your weight, height or working position, the 700 series can quickly adapt to your desires and requirements. This series comes in a wide choice of various backrests and seat types to allow customisation.

rh logic 400

RH Logic 400 ergonomic chair has a high back which enables you to do more and perform better. The RH Logic 400 will suit different people and work situations with a wide range of fabrics and options, such as extra large seat and control room design. It comes as standard with lumbar pump, castors for soft floors and an aluminium base.

hag sofi

At its core it has a unique balance movement mechanism, intuitively keeping you balanced in a continuous motion. This mechanism allows your upper body to remain natural and composed. The foot control movement assures you and the seat move together; the chair will always follow and imitate you. Unique slide back armrests allow you to move closer to your desk; an ergonomic advantage for any chair.

bal 501

Designed at a competitive price point the 501 offers back rest height and tilt adjustment allowing for numerous lockable positions. A padded back and seat providing comfort and lumbar support for sustained use. For further customisation armrests can be incorporated.

bal 804

The refined mesh back provides excellent support and allows temperature control around the user's back; keeping you cool and comfortable in all conditions. A smooth, yet robust synchronised seat and back movement, or a permanent contact back if preferred, helps achieve a flexible supportive position. Available with an optional chrome base as a stylish alternative.

bal 602

Ergonomically designed for comfort and support, 602 is fully equipped to deal with the most demanding of work environments. Can easily be reconfigured for individual users and thus enhancing performance. Fully adjustable with back and seat adjustment and can be tailored with optional seat slide and lumbar pump accessories.

alina

An ideal option for training, meeting or conference rooms. With a breathable mesh back and three frame options, Alina has a model to meet all requirements. Frame options include cantilever, four-legged and four-legged with castors. Arm and right arm writing tablets can also be added to the four-legged models.

matrix

A beautifully designed contemporary armchair that will provide a modern touch to any boardroom, conference room or meeting space. The Matrix incorporates a stackable frame in either a four legged or cantilever option.

fly

Fly maximises space efficiency by allowing both horizontal nesting with a flip-up seat pad and vertical stacking on a robust four legged chrome frame. Fly has a unique and light silhouette with either a plastic back or a simple active mesh solution. With the option of armrests and writing tablet for a flexible, multi-purpose seating solution.

song

Song was inspired by a moment of pure creativity, capturing the simplicity and beauty of good seating. Providing a compact but supremely comfortable solution for break-out and informal meeting areas. Used alone, or in combinations to provide a feature in foyers or a contemporary focussed feel to personal seating areas.

web

Web 950 is ergonomic and functional. Available in two versions with a plastic or mesh backrest - Web 950 offers excellent stackability, optimising and furnishing your space. Available with armrests and is equipped with practical accessories, such as lateral hooks between seats, writing tablet and basket.

danny

Danny is a slender modern design featuring a distinctive four leg base, available with a smooth swivel action. This range is perfect for breakout and meeting environments. Its slimline but flexible construction allows for supreme comfort, allowing users to enjoy a high level of comfort for longer periods.

aktiva

Aktiva is a polypropylene chair designed to offer the comfort and well-being of an ergonomic chair. Lightweight and easy to handle, this can be easily stacked for storage in confined spaces and can be used as a single chair or in a row, using lateral hooks under the seat.

multi

Multi features injection moulded polypropylene seat and back. The range also includes an upholstered version to add extra comfort to the chair. Many accessories are available to make Multi an ideal solution for waiting areas, conference rooms and offices.

class

Comfort and ergonomics are highlighted by a modern polypropylene design with simple clean-cut lines. For contemporary community areas, waiting rooms and offices, where it is important to offer comfortable functional seating to create unique, informal, creative environments.

i-flexx

A simple polypropylene design, with soft clean lines, is only one of the features of I-Flexx 450. Thanks to a pivoting element positioned between seat and backrest which enables the backrest to tilt back according to the movements of the body.

clip

Clip 200 is a polypropylene seating line with a fresh contemporary design that guarantees maximum comfort. Practical, easy to handle and stackable. Also offering optional pull-out hooks on both chairs, with and without arms, for composing into rows.

replay

Comfortable and lively, this polypropylene chair with perforated back enhances its comfort and practicality. Many accessories are available including cantilever armrest, hooks and tablet arm for a flexible multi-purpose solution.

iso

The Iso chair is an ideal addition to any modern inspired environment. This versatile chair can be used in various seating spaces for a contemporary look, at a competitive price.

solace

The refined shape gives Solace credence in breakout and visitor areas as well as in boardroom environments. A well-proportioned armchair with various base options.

polo

Polo's effortlessly simple styling, open back and gentle curves combine to create a practical, modern seating solution.

beetle

Lines that are simple as they are enveloping: a lounge chair created with a high or low backrest and can be paired with a comfortable pouf.

casino

The Casino is an elegant modern tub chair with a curved frame and foam filled cushions offering firm support as you sit and relax. Available in two or three seaters for larger areas. The attractive wooden feet, stained to match your interior, give it an extra design feature.

loop lounge

The Loop Lounge chair makes for a super stylish and comfortable breakout or workspace solution. Loop can be combined with either a modern or traditional furnishing scheme to compliment its environment. As with the Beetle it can be paired with a comfortable pouf.

malmo

Malmö recalls the experience of a return home with the cosiness of wood warming up the environment. This lounge armchair offers a comfortable yet functional seating choice.

brix-up

For informal meetings, or just some quiet time to contemplate, the Brix-Up provides a versatile and flexible soft seating, meeting solution. It combines an acoustic surround with a Brix bench to create a beautifully detailed unit to suit a modern way of working. Brimming with character, these slightly retro units provide a perfect workspace away from your workplace.

wait and see

Wait and See offers an exciting take on the traditional tub armchair; a softly upholstered stool provides an informal and friendly seating solution, while for longer periods the Wait tub chair provides appealing levels of seating comfort with the same friendly and quietly confident form.

social plus

Social Plus is a modular system of linear and corner seating, deep and wide, that gives extraordinary comfort and relaxation. The linear and elegant design is enhanced by the legs positioned at the extreme corners. The steel frame and die-cast aluminium legs can be powder-coated or have a polished finish.

sf-500

A modern classic that brings exceptional comfort to any breakout area. With single, double and triple seat versions and an extensive selection of fabrics available, this is a range that can be mixed and matched as desired.

dot, dash

Dot and Dash soft stools are the perfect soft seating solution for creating modern, fun and bright areas. Ideal seating for breakout, touchdown or reception areas. Dot are circular seats, dash are square, custom made and ideal to mix & match for a funky environment.

WOW

Wow is a system of poufs: round, square and rectangular which give a casual and quirky touch to the environment. Flexibility in the range provides options for impromptu meetings.

harc

Within busy workplaces and collaborative environments there is a need for furniture that encourages social interaction, intimate meeting places, privacy, and places of refuge where focus, paying attention and listening are essential. The name Harc echoes the arc shape; with its sweeping curves that wrap around to create a warm and cosy enclosure.

box

Simple yet flexible, fun and funky, angular yet soft, box-it makes it easy to brighten any space and can be reconfigured continuously to meet the demands of the more informal meeting areas. Sit comfortably as part of any configuration, ticking all the right boxes.

joke

This retro styled chair with its curved back, offers an individual, comfortable and relaxing alternative. Available with various base designs to give the flexibility needed for different environments.

sf-ym

This contemporary chrome framed sofa will bring a touch of luxury to any soft seating area. Available in an extensive selection of fabrics, this is a range that can be mixed and matched as desired.

jensen-up

Jensen-Up affords privacy in the modern business workplace, an oasis of calm in an otherwise active environment. With fine attention to detail, this acoustic, high-backed choice provides an ideal place for relaxing breaks, or casual meetings, protected from the distraction of background noise.

Table model: Plus 5.

henray

HenRay is a sharp and stylish range of soft seating. High back units offer comfort and privacy and suite perfectly with low back seating, benches and tables. Curved modules and booths complete the extensive collection to create large landscape configurations ideal for meeting and public spaces.

ole'

The Ole dining chair makes for a fabulous option around any dining table. Its metal legs and coloured polypropylene shell marry in perfect harmony. Available in a variety of stylish base options.

zed

A stool with a curvy, fun silhouette. Gas height adjustable with chrome base and footrest adding a sleek style.

fiorellina

Stylish and quirky this lightweight and practical chair, is offered with solid or perforated backrest, both with or without arms for an added design feature.

porta venezia

Wood, plastic, and a classic design make Porta Venezia a product that fits harmoniously into any furnishing style with its numerous combinations of colours. The family includes chair, kitchen stool, bar-stool and lounge versions, and also extends to include several table versions.

loop 3d

The Loop is a lively and elegant chair collection, it is the first one-piece shell in the world with arms in 3D curved wood. Available in a wide range of materials and compositions to suit its environment.

kuadra 1325

The Kuadra chair family is an extremely flexible arrangement of seating suitable for contract use or at home. Offering a wide variety of choice regarding the seat and frame with the shell available in either multilayer veneered bleached Oak, Wenge stained, Ebony, Zebrano or upholstered in fabric/leather.

Table model: Kuadro TK2.

hoxton

Adding contemporary style, comfort and practicality to any situation. This beautiful design is complimented by implementing uv-resistant plastics, making these products lightweight, ultra-durable and easy to clean. This range offers a stylish, sustainable solution to any area and is available in a wide range of bases.

shoreditch

The Shoreditch range has been developed to add contemporary style, comfort and practicality to any situation. Beautiful design, available with a wide range of bases, is complemented by the latest hi-tech materials to provide lightweight yet strong components which will stand the test of time.

now

Shaped seat and back with lumbar contour this colourful one-piece chair is made of polypropylene and fibreglass using bi-injection technology. Chrome or matt painted steel four-leg frame with ball-jointed feet or skid base and is available with optional arms.

big bang

This is an eye catching side chair ideal to furnish modern dining areas. Big Bang is a chair that uses digital language in order to create an explosion of colours. An innovative graphic solution, Big Bang is made of a multi-coloured technopolymer shell and a chromed or white-painted frame.

angelica

This beautiful, dining chair features an upholstered modern back curve with comfort in mind. The striking beech frame makes a visual statement that sets it apart from others.

lily

A quirky, beech framed chair offering an alternative style for a dining environment. With its gently rounded and sculpted shape, this lightweight chair gives superior comfort.

malika

With ergonomic features, clean lines and maximised use of space, this product has all the characteristics favoured by architects and designers. With plastic seat and back, sled or four legged frame versions, Malika features remarkable design innovations that will enhance multi-use spaces for many years.

modus

Modus is a soft sitting system, composed of modular units, that can satisfy every furnishing requirement. A functional seat that helps you to optimize the seating space. It can be placed in the center of a room or along a wall to create stylish booth seating. Available in various back heights and designs. Chair model: Vic 645.

leila 681

Leila armchair, soft and elegant, with its rigorous and geometrical shape, is conceived for restaurants, offices and homes. Featured by rounded corners and embracing shape, the beech wood frame is available in Natural Beech, Wenge stained or White lacquered open grains finish.

laja 885

An elegant armchair that is extremely eclectic and versatile. The comfortable seat is made of elastic belts surrounded by injection moulded polyurethane foam. The design of the upholstery allows a double match, of materials and colours, that gives a further furnishing idea.

paris

This classic French styled seating, is crafted from sheet metal, this design is unequalled in foolproof solidity, lightness and easy maintenance. A powder-coated steel stacking chair that is highly sought-after with its industrial aesthetic.

emma

Simple, well-defined lines, Emma is a solid Oak or Beech chair that is also available with an upholstered panel. The stool version has a more minimal seat and can also be upholstered. Table model: Emma.

zenky plus

Zenky offers an unparalleled combination of cutting-edge design and practical, specialist expertise. This beam seating range caters for the body's many and various shapes, and is designed specifically to support them, in comfort, for extended periods. The entire system is designed to allow almost unlimited configurations in high use airport and hospital waiting areas. In addition, we can supply raised-height seating and tip-up arms to meet the needs of disabled users.

iso

A reinvented classic, offering flexible seating for your waiting area. Easily configured in various sizes, to adapt to your specific needs. The chrome arch foot frame adds a modern alternative to the also available, standard black frame.

alina

A traditional family of chairs, Alina comprises both lightweight practicality and simplicity and will fit with confidence into any environment. Seat and back can be supplied in wood, fully upholstered or with a mesh back. Available in various sizes to fit any environment.

la filo

A slender retro chair, a family of multi-purpose beam seating is complemented by its clean and crisp appearance. It's strength and versatility contrasts with the elegance of its' slim-line chrome frame. Also available in various sizes and with armrests.

zeroquindici

Highlighting the creative flair and combining it with the comfort for use. The bent pipe structure made of stainless steel or epoxy powder coated steel tube is available in different colours. Also available for outdoor use. Ready-equipped for fastening to the ground.

h24

An essential hardwood top and steel structure, elegantly combined for a robust yet stylish look. The structure is made of steel, epoxy painted in different colours. Also available for outdoor use. Ready-equipped for fastening to the ground.

ikon

Defined by simple shapes and clean lines, the versatile Ikon collection is now enlarged with a collection of modular seating. Suitable for indoor and outdoor use, the collection comes from the research of synthesis, beauty and functionality. Ikon Bench has an injected moulding polypropylene base and solid laminate top.

Outdoor Chair models: Day dream, Mya & Ice.
Indoor Chair models: Gliss & Grace.

factory

With its strict minimalism, Factory communicates an atmosphere of fine functionality. Clean lines, large surfaces and various heights that greet visitors and meet all the needs of the reception staff. Prestigious in real Wenge, Ebony and Walnut, pleasantly essential in White, warm and sunny in Walnut, Light and Dark Oak.

four

The reception area of any company sets the principal tone to the organisation and Four reception highlights this in a bold statement. The high gloss White contemporary finish has an elegant glass top giving it a welcoming appeal.

funny

Based on simplicity and practicality. Funny reception is characterised by vertical screens and a shelf with a front panel that gives it an elegant, yet functional design.

luna

Curved and linear forms to be freely combined, to compose sinuous geometries, as much characterising as functional: this is the concept of Luna. A wide selection of finishes: from the purity of white and aluminium, to the heat of the wooden texture.
