

MADE IN THE UK

SEATING
POSTURA+

Postura+ Seating Collection

Used by millions of students every day, all over the world

Created in Australia in the 1990s, Postura+ was the first one-piece polypropylene chair created specifically for education environments. It quickly gained a loyal following in the UK with thousands of schools, and since 2005 it has been locally manufactured to meet growing demand and European standards.

Postura+ has grown into an extensive family of specialist school seating products, is perfect for any situation. Low maintenance, comfortable, versatile and durable, the Postura+ collection helps create happy, healthy, high performing learning spaces where students can achieve their full potential.

The chair's ergonomic design enhances concentration and comfort, while its strength and durability make it excellent value for money by reducing costs of procurement, repair and installation. Postura+ is the only one-piece polypropylene chair to consistently outlive its warranty, and is backed by a number of certifications.

Indoor Advantage Gold - Furniture

This product is certified to Indoor Advantage Gold - Furniture, making it suitable for many building rating systems, including LEED v4, BREEAM, & WELL Building.

Optimise Learning Spaces

Furniture plays an important role in optimising learning environments. Traditionally, classrooms were laid out to deliver a one-to-many teaching model. Now, as we transform to a knowledgebased economy in the information age, problem solving, interaction, collaboration and visual communication are taking precedence over rote learned, process-driven work.

Therefore, the learning environment must be flexible and adapt to the changing needs of both teachers and students - transitions from lecture, group study, presentation, discussion, and individual work time. Postura+ is the perfect all-round performer for any space, on any budget.

Comfortable

- Perfect ergonomic design ensures comfort, enhancing concentration & wellbeing
- Graduating seat curve, waterfall seat edge support 'perch' & 'full' sitting positions
- Legs & bases prevent rocking or slipping

Durable

- High impact-resistant polypropylene
- 100% recyclable materials
- High fire retardancy

Practical

- Integral grab handles, light, easy to move
- Anti-static, stain resistant
- One piece chairs are suitable for occasional outdoor use

CHAIR & TABLE SIZING GUIDE

The British and European Standards for "chairs and tables for educational institutions" were approved in January 2007. BS EN 1729 Part 1 (functional dimensions) ensures furniture is the appropriate size, shape and ergonomic design to maintain good posture and reduce RSI and back pain in students. This size mark guide indicates which fixed seat heights and table heights are suitable for the student's age:

Size Mark 1	Size Mark 2	Size Mark 3	Size Mark 4	Size Mark 5	Size Mark 6	
3-4 Years	4-5 Years	6-7 Years	8-10 Years	11-13 Years	14-18 Years	
Foundation Reception	Foundation/KS1 Reception/Y1	KS1 & Early KS2 Y1, Y2 & Y3	KS2 Y3, Y4, Y5 & Y6	Early KS2 & KS3 Y6, Y7, Y8 & Y9	KS4 Y10 & Y11	
						
Colour Code						
Popliteal Height Range	250-280mm	280-315mm	315-355mm	355-405mm	405-435mm	435-485mm
Stature Range	930-1150mm	1080-1210mm	1190-1420mm	1330-1590mm	1460-1765mm	1590-1880mm

Popliteal height defines the correct seat height. The measurement is taken from the floor to the back of the knee when seated with thighs horizontal and lower leg vertical with feet flat to the floor.

This measurement is useful when comparing existing or older furniture that does not comply with BS EN 1729 to determine the compatible size. Stature is from floor to the top of the head.

Identifying the size of your Postura+ chair
On Postura+ chairs you can find a colour-coded sticker on the top side of the backrest that corresponds to the table above. The example (below left) shows a blue sticker, so the chair can be identified as a Sun Yellow size mark 6 chair.

A round sizemark indicator is also located on the underside of the chair. An arrow inside this circle will point to the number that indicates the size of the chair (image below right).

Upholstery will require additional 1-2 weeks, subject to fabric availability. Please confirm lead times & any custom options with the KI team.

ENVIRONMENTAL OVERVIEW

OTHER INFORMATION

Environmental Product Declaration

An Environmental Product Declaration (EPD) is available for KI's Postura chair Size 6. This is cradle to grave EPD based upon production information and data collected by KI from their producers in 2020. This EPD was modelled in SimaPro 9.0.0.24 using data from Ecoinvent version 3.5. [Download this EPD](#).

Materials Information

Polypropylene chairs & seat shells

- 100% virgin polypropylene (Jet Black only: 100% recycled polypropylene), 100% recyclable

Frames & bases

- Powdercoated steel frames: 100% recyclable
- Glides: 100% nylon, 100% recyclable
- Task base (nylon & chrome; gas columns, castors & glides): 100% recyclable (made of mixed materials, may need to be separated for recycling; gas lifts must be depressurised and drained of oil)

Seatpads

- 4mm foam fixed with adhesive onto ply wood shell, fabric secured by C-Gex with bias banding.

Packaging & Shipping

- Wooden pallets - reusable & recyclable
- Shrink wrap - recyclable
- Banding - recyclable

Product	Units per box	Units per pallet	Pallet weight*	Pallet dimensions* (mm, LxWxH)
One Piece Chair Size 1	6	120	188.0kg	1000 x 1200 x 2170

Care & Maintenance Instructions

Proper care and careful use are the best methods of maintaining the appearance and finish of any product.

Polypropylene shells

For normal cleaning of poly shells, use a soft cloth with mild soap or detergent and lukewarm water. Do not use solvents, citrus/ orange-based cleaners, or heavy-duty kitchen cleaners. Remove chewing gum and similar stubborn spots with cigarette lighter fluid. Wipe dry immediately. A general, non-abrasive all-purpose cleaner is ideal for light cleaning and to restore lustre to smooth surfaces. Its anti-static properties help repel dust and dirt. High-quality wax restores lustre and protects the finish.

Powdercoated & chrome metal frames

Remove chewing gum and similar stubborn spots with cigarette lighter fluid. Wipe dry immediately. It is recommended that frames be protected from water, rain, ice, snow and salt.

If gloss finish use a silicon-based spray polish to clean. For thin surface scratches wipe with thinners (pour onto a soft cloth not directly on the surface) or spray with clear lacquer. For deep scratches sand with emery paper, clean and repaint with appropriate spray gloss/matt paint.

Note: Colour match is critical, spray onto white photocopy paper and check colour before spraying.

Vinyl fabric

Use normal dishwashing liquid with warm water and a soft cloth. Dry with a clean soft cloth.

Polyester & wool fabric

Use dry carpet pellets or powder for wet stains, let dry and brush off or vacuum. Use a standard upholstery cleaner foam for dry stains, spray lightly over the stain and brush off after 5 minutes.

Certifications & Standards

- **Indoor Advantage™ Gold - Furniture**
All Postura+ products have been independently assessed by [SCS Global Services](#) to be certified for low volatile organic compound (VOC) emissions. The Indoor Advantage™ Gold standard aligns with both ANSI/BIFMA M7.1 and X7.1, and CA01350. Suitable for projects aiming to achieve [SKA](#), [BREEAM](#), [WELL](#), [LEED v4](#) and more.
